CONTINENTAL AIRLINES REPORTS OPERATIONAL

PERFORMANCE FOR THE FIRST TWO WEEKS OF OCTOBER

HOUSTON, Oct. 15, 2001 - For the first two weeks in October 2001, Continental Airlines (NYSE: CAL) today reported a 71.3 percent domestic and 56.3 percent international load factor for a systemwide load factor of 65.5 percent. The systemwide load factor is 13.2 points above the load factor reported for the last two weeks of September 2001 and 5.5 points below the 71.0 percent load factor reported for the comparable period in 2000. The domestic load factor is 1.3 points higher than the results for the same period last year, although on 18.9 percent less capacity.

Continental's on-time arrival rate was 84.0 percent for the first two weeks of October. Completion factor for the two weeks was 99.1 percent, with the carrier operating approximately 1,100 flights a day.

"Continental is continuing to see a growing increase in its load factors since the Sept. 11 attacks, especially on its domestic flights," said Gordon Bethune, Continental chairman and chief executive officer. "The positive load factor trend shows that customers have confidence in Continental and are returning to the skies for their travel needs."

During the first two weeks of October 2001, Continental flew 1.8 billion revenue passenger miles (RPMs) and 2.7 billion available seat miles (ASMs), resulting in a traffic decrease of 23.6 percent and a capacity decrease of 17.2 percent versus the corresponding

two-week period in October 2000. Domestic traffic was 1.2 billion RPMs, down 17.4 percent from October 2000, and domestic capacity was 1.7 billion ASMs, down 18.9 percent from last year.

OCT. 1-14 PERFORMANCE/PAGE 2

Low load factors and yields resulted in a decrease in estimated systemwide passenger revenue per available seat mile (RASM) of between 26 and 28 percent for the first two weeks of October 2001, as compared to the first two weeks of October 2000. During Sept. 17-30, 2001, RASM declined 38 percent, as compared to the same period in 2000.

Continental Express, a wholly owned subsidiary of Continental Airlines, reported a load factor of 62.3 percent for the first two weeks of October, 1.8 points above the comparable period last year. Continental Express flew 127.3 million RPMs and 204.2 million ASMs the first two weeks of October, resulting in a traffic increase of 4.5 percent and a capacity increase of 1.5 percent versus the same period in October 2000.

Weekly Statistics

The following table summarizes Continental's load factor over the past four weeks.

PRELIMINARY WEEKLY LOAD FACTOR AVERAGES

Sept. 17-23**Sept. 24-30****Oct. 1-7****Oct. 8-14****PASSENGER LOAD FACTOR**
